

ProPLMClient

SAP Solution – PLM Client

PRODUCT FACTS

ProPLMClient from ProNovia is the central interface for displaying, managing and editing all relevant SAP PLM objects. A fast and intuitive navigation between the objects and the clear presentation of all necessary data make ProPLMClient an indispensable cockpit for every user.

Functions

- Support of SAP standard objects and their functions: Material master, plant, distribution chain, document info record, change master, functional location, equipment, project, PSP element, workplace, work plan, quality inspection plan, etc.
- Access to object-related SAP functions (transactions, reports, etc.) via freely definable function tree
- Customer-specific extensions for additional SAP objects, functions and data for SAP standard objects
- Clear presentation of master data
 - Basic data
 - Classification
 - Organization specific data
 - Organizational units (client, plant, distribution chain, storage locations, valuation areas, etc.)
 - Parts lists
 - Structures
 - Object uses
 - Hierarchies
 - Linked objects incl. maintenance functions
 - Task list groups / assignments

- Integrated display of original documents (MS Office, SAP Visual Enterprise Viewer, Adobe Reader etc.)
- Support of SAP 3D visualization
- Integrated display of preview graphics (thumbnails) for SAP objects (material, document, equipment, etc.)
- Complete integration of ProNovia products
 - Functions
 - Data display

Technology

- Based on ProFramework from ProNovia
- Extensive development and configuration of cross-object, modular applications possible
- First-class user experience independent of UI technology

User interface

- Configurable interfaces
 - Definition of user- and role-specific interfaces
 - Personalisable interfaces and data contents
 - Management of object selection and favourites
 - Simple and intuitive operation

- Maximum interaction possibilities
 - Double click
 - Dynamic context menus
 - Drag'n'Drop
 - Multiple selection of objects
- Graphical control elements
- Context-sensitive, dynamic display and hiding of information and functions
- Integration of ProNovia products
 - ProAdmin
 - ProConfiguration
 - ProDocument
 - ProChangeDoc
 - ProProcess

Advantages

- Integrated view of all related PLM objects, including structures and uses
- Increased productivity through efficient navigation and manipulation of SAP PLM objects
- Definitions of role-specific interfaces increase user-friendliness, e.g. by providing a user interface for logistics, engineering, etc.
- Cross-user and project-related handling of objects through the integrated use of selection lists

Properties

- Customizing environment for extensive configuration
- Integration with other ProNovia products possible
- Business add-ins for implementing customer-specific functions and interfaces
- Delivered GUI language support in German, English and French
- Detailed documentation in German and English
- Authorization objects for integration into the SAP authorization concept

Optional extensions

- Mapping of data models and processes with reference to the SAP organisational levels plant and sales organisation
 - **ProConfigurationLogistic**
- Mapping of CAD data models and processes using a CAD-oriented design methodology and support of the CAD standard integrations offered by SAP
 - **ProIntegrationLib**
- Versatile output of defined product configurations
 - **ProBaseline**

PRIMARY FUNCTIONS

With ProPLMClient you can access the SAP PLM objects you need with just a few clicks. The administration and processing of PLM objects is also facilitated by this intuitive SAP solution.

- Clear presentation of master data
- Integrated display of document originals
- Support of SAP standard objects
- Integrated display of preview graphics
- Extension for additional SAP objects possible

ProPLMClient is a central interface that enables you to efficiently navigate and manipulate SAP PLM objects, thereby significantly increasing your productivity. Thanks to configurable displays, which can be defined role-specifically, this SAP solution also convinces with maximum user friendliness.
